

ALL INN

BREWING CO

Welcome our New Core Range

At All Inn, we make beer by treating our ingredients, our environment, & our community with care and respect. With a focus on brewing a diverse range to suit any time, place, or person, our mission is simple... to brew good beer for good people.

All Inn Brewing Co Core Range

PALE ALE

ABV: 4.9%
Malt: Ale, Gladiator, Light Crystal
Hops: Amarillo, Simcoe, Mosaic, Cascade
Yeast: US05
Taste: An all round crowd pleaser. In this Pale Ale, the sweeter specialty malts balance out the bitterness from the generous use of classic American hops. This is a good beer, made in an old school way that just works. Complex if you want to think about it, but sessionable enough to enjoy by the pint with your mates.

LAGER

ABV: 4.2%
Malt: Pilsner, Wheat
Hops: Motueka
Yeast: S189
Taste: A modern tweak on a traditional lager. A touch of tropical flavour and a crisp light mouth feel makes this beer the perfect summer sipper, especially in the hot Queensland sun. This beer isn't too complicated, it is what it is, just crisp, clean good old fashioned and refreshing.

SESSION PALE ALE

ABV: 3.5%
Malt: Ale, Munich, Gladiator, Light Crystal
Hops: Azacca, El Dorado
Yeast: US05
Taste: This deceptive beer drinks and tastes like a full strength pale ale but doesn't have the higher ABV, If we didn't tell you...you wouldn't know! Tropical fruit and balanced malt make it the beer to session on when you still have things to do afterwards. So don't worry, have a couple, it's all good.

HAZY IPA

ABV: 6.5%
Malt: Ale, Big O, Wheat
Hops: Azacca, El Dorado, Mosaic, Citra
Yeast: S33
Taste: Like a tropical, juicy hop pillow. You'll taste pineapple, mango and passionfruit, like the tinned fruit salad you put on a pavlova. The lower bitterness means that every time you take a sip you are enticed with an amazing fruity aroma that just keeps you coming back for more. This new beer is sure to become a favourite for all you good hop loving people out there.

IPA

ABV: 6%
Malt: Ale, Munich, Gladiator
Hops: Chinook, Centennial, Strata, Comet
Yeast: US05
Taste: If you like your IPA's dank and bitter this beer is the beer for you. Our take on the West Coast IPA uses a blend of modern hops coupled with some old favourites to give you a real IPA experience. The combination of dankness, tropical fruit, sweet malt and firm bitterness make this beer one for the true believers. This good thing just got better!

RED IPA

ABV: 6.5%
Malt: Ale, Munich, Aurora, Shepard's Delight
Hops: Simcoe, Mosaic, Citra
Yeast: US05
Taste: The perfect combination of hops and malt, there is a lot going on here. The caramel maltiness and tropical fruit/berries play against the lingering bitterness, making it a great beer to finish your session on. A cult favourite amongst our loyal fans. The complexity of this beer is like a rollercoaster of goodness. Strap yourself in!
